

# Women Emerging's Leadership Accelerator for Wavemakers

Wavemakers are young women aged 18–30 already organising, building, and leading change in their communities — too often without the resources, networks, or leadership development they deserve. The Wavemakers Accelerator exists to change that, and give them the language and the global community to go further.

## Why Women Emerging?

Women Emerging (WE) is a global, non-profit movement with a mission to reframe leading so that more women choose to lead. We see that 'status quo' leadership too often turns young women away from leading, at a time when their knowledge, expertise, and insights are needed more than ever.

## What is the WE Wavemakers Accelerator?

- Free six-week online leadership accelerator, starting November 2026
- Self-paced exploring—2.5 hours per week—combined with live calls with expert Guides
- Rooted in the 4Es, WE's unique leadership methodology, developed by women at WE
